Blue Ridge Wildlife Center is a 501(c)3 organization caring for native wildlife by integrating veterinary medicine, rehabilitation, education, and research. The Center relies on private donations exclusively. Contributions are tax-deductible.

SATURDAY, SEPTEMBER 28, 2024

Museum of the Shenandoah Valley | Winchester, VIRGINIA

## CORPORATE SPONSORSHIP OPPORTUNITIES

### Why Support the Blue Ridge Wildlife Center?

**COMMITTED TO WILDLIFE CARE IN NORTHERN VIRGINIA**

**AND BEYOND:** The Blue Ridge Wildlife Center (BRWC) is the sole comprehensive wildlife care facility in Northern Virginia. We are dedicated to providing the highest quality veterinary care, public education and outreach, professional training, and research, serving wildlife and people across the region.

**PRESERVING WILDLIFE FOR THE BENEFIT OF ALL:** Preserving wildlife benefits all by maintaining the balance of ecosystems, which in turn sustains vital resources like clean air and water. It also supports biodiversity, contributing to scientific research, ecotourism, and the overall well-being of both human and animal populations.

**EXCLUSIVE WILDLIFE TRAINING CENTER:** BRWC stands among just three licensed wildlife veterinary teaching hospitals in Virginia. Since 2016, it has instructed over 300 veterinarians, veterinarian technicians, rehabilitators, and interns, empowering them to aid wildlife globally, from Virginia to Malawi and Australia.

**EDUCATION:** Public awareness is crucial for wildlife conservation efforts, and the BRWC staff raise awareness through a wide variety of programs reaching all age groups. Outreach efforts in 2023 engaged more than 6,300 individuals. The free wildlife walk and indoor education center are open to the public daily, allowing visitors to see native wildlife species first-hand.

**ONE HEALTH RESEARCH AT BRWC:** The impacts of wildlife diseases on humans are increasing. BRWC's veterinarians are participating in more than a dozen research studies across the US, working with State agencies and multiple Universities on studies designed to help solve this growing problem.

*Thank you for your support!*
